

X-ray Optics Colloquium

21 April 2018

YAMAUCHI LABORATORY
Osaka, JAPAN

We will hold an X-ray optics colloquium on 21st (Sat) April, 2018 as a satellite meeting of XOPT 2018 at Yokohama from 24th (Tue) to 26th (Thu). The aim of this colloquium is to discuss about latest topics relating to X-ray optics and its application. This year, we especially focus on adaptive X-ray optics for the next generation SR and XFEL based microscopy and on diffraction microscopy.

- 09:00 Opening
- 09:10 Optics session
- 12:00 Lunch
- 13:00 Diffraction microscopy
- 15:00 Lab tour at Osaka Univ.
- 14:00 Lab tour at JTEC
- 18:00 Dinner
